DESCRIPTION: GREEN•SOL 70 is a water soluble synergistic powder containing an array of major and trace elements. It is rich in analysis and acts as a valuable supplement to soil applied fertilizer programs and provides the nutrients needed to induce blooming and fruit set. GREEN•SOL 70 increases production if adequate soil moisture and nitrogen are available. If the soil moisture is not adequate for normal plant growth, irrigate or wait until rainfall occurs before application. These applications do not replace your regular fertilization program. Follow your State Extension recommendations and add GREEN•SOL 70 for increased yields.

MAJOR ADVANTAGES: Application of GREEN•SOL 70 has proven successful in improving plant vigor, crop quality, early maturity and increased yields. GREEN•SOL 70 is unique in its mode of action, resulting in heavy bloom and fruit set. The balance of nutrients in GREEN•SOL 70 encourages faster transition from plant vegetative stage to the reproductive stage of development, resulting in early maturity and increased yields.

METHOD OF APPLICATION

Apply as a foliar spray with ground or aerial equipment. For aerial application, use 1 to 5 gal/acre total spray volume. For application with ground equipment, use 5 to 10 gal/acre total spray volume. This product may be applied alone or in a tank mix with insecticides and/or fungicides. Apply with any spray nozzle and equipment that delivers a fine, even mist to ensure coverage. Do not apply this product through any type of irrigation system.

COMPATIBILITY

GREEN•SOL 70 is compatible with most liquid insecticides and/or fungicides. When compatibility is in question, test with the standard quart jar method.

SUGGESTED RATES AND APPLICATION TIMES

COTTON: Apply 6-8 oz/acre directed to foliage immediately prior to bloom and 6 oz/acre 2 weeks later. Apply 2-3 oz/acre later in the season if growing conditions are good.

WHEAT AND RICE: Apply 6-8 oz/acre early in the growing season, prior to panicle initiation stages.

FIELD PEAS: Apply 6-8 oz/acre after first bloom.
